Thank you for your interest in Boda Games Manufacturing!

We are a full-service board game manufacturer, dedicated to turning the best game ideas into reality. With more than a decade of experience, we have the knowledge and expertise to guide your project from first concept to finished product.

From prototypes to full production, we offer a complete range of services to support your game development journey. Boda Games has the capabilities to help you produce every type of component, whether they are cards, punchboards, wooden tokens, plastics, miniatures or other components, using advanced printing technologies and premium materials. We also work closely with publishers preparing crowdfunding campaigns, helping them create prototypes, plan stretch goals, and set realistic production schedules.

We are also proud to hold key industry certifications including ICTI, FSC, BSCI, Disney FAMA, and NBC Universal. These reflect our ongoing commitment to sustainability, social responsibility and the highest standards of quality.

Thank you for considering Boda Games Manufacturing for your next project. We look forward to working with you to bring your vision to life.

Let's make quality games together!

Consulting Services

Your Game, Our Expertise

With over a decade of experience in board game manufacturing, Boda Games helps publishers and designers turn game ideas into reality. We understand that every game is unique and we take the time to understand your vision and objectives to find the best path forward, while ensuring your project stays aligned with your creative goals and budget.

From Idea to Production

Our deep knowledge of materials and processes helps you evaluate trade-offs, costs and deadlines. Premium finishes, custom inserts, miniatures, every feature has an impact. We help you decide where

to invest and where to simplify, balancing costs and player experience. We'll make sure you have the insights you need to make the right decisions for your game.

Packaging & Compliance

Board games don't just have to look great, they must also meet market requirements. We guide you through compliance and safety testing requirements such as CE, UKCA, ASTM, and others, as well as packaging regulations, so your game is ready for global distribution.

Timeline & Logistics Planning

From Kickstarter fulfillment dates to convention launches, we'll help you align your release plans with realistic production and shipping schedules.

Sustainability Choices

We advise on eco-friendly options like FSC-certified paper, soy-based inks, and alternative packaging methods. Publishers increasingly want sustainable solutions, and we make it easier to choose the right ones for your project.

Always Available

Questions, advice, or a second opinion: we're just a call, email or video chat away. Our mission is simple: to help you create board games that are not only beautiful, but also engaging, durable, and successful in the market.

Crowdfunding Campaigns

Launch your next game with Boda Games!

Looking to fund your board game on Kickstarter, Gamefound, or Backerkit? With countless successful projects behind us, Boda Games knows what it takes to move from idea to campaign to final product.

Support from Start to Finish

Crowdfunding can be overwhelming, especially the first time. We guide you through every stage: from component and material choices to prototypes and production planning. Let's make sure the game has a great first impression!

Finding the best stretch goals & add-ons

We'll help you choose components and add-ons that backers love, while staying practical for manufacturing and shipping. From deluxe finishes to upgraded inserts or bonus content, we will guide you in offering extras that add real value for backers, without creating costly complications.

Designed for Manufacturing

Our team ensures your game is optimized for production from day one. We'll show you how to balance quality and costs, avoid pitfalls and prepare files and components that are ready for mass manufacturing.

Built for the Backer Community

Crowdfunding isn't just about raising money, it's about trust. We align your creative vision with what the backer community expects: a game that looks great, feels premium and is delivered on time.

From campaign launch to final manufacturing, we make sure every choice leads to a game that delivers on its promise.
